

# DURABLE STABLE & SUSTAINABLE

# WELCOME TO THE FUTURE OF WOOD

Imagine a solid wood that is sourced from fast-growing sustainable forests, has zero toxicity and provides dimensional stability and durability that exceeds even the best tropical hardwoods.

Imagine a wood that can replace increasingly scarce tropical hardwoods, treated woods and less sustainable materials in new and existing outdoor applications. Imagine a wood that will act as a better carbon sink during its extended life span and can be safely recycled at the end. Such a wood exists. It is Accoya® wood: the world's leading high technology wood.

NON-TOXIC

100% RECYCLABLE

PERFECT FOR COATING

UV RESISTANT

INSECT BARRIER

MACHINABILITY

CONSISTENT QUALITY THROUGHOUT

FROM SUSTAINABLE SOURCES

DIMENSIONALLY STABLE

CLASS 1 DURABILITY

LONG LASTING

RETAINED STRENGTH & HARDNESS

## NATURAL SCIENCE

Spanning eight decades of research, Accoya® wood combines past and present scientific wood acetylation study with a proprietary production process to deliver reliable commercial-scale results.

The acetylation process used to make Accoya® wood is entirely non-toxic and introduces no chemicals not already found in the wood. In producing Accoya® wood, the chemical structure of the wood is modified from the surface to the core, providing a class leading durable and exceptionally stable product.

Accoya® wood is fast becoming the material of choice for exterior applications and can be used for virtually anything, from windows to doors, decking to cladding and siding, and even for applications which were once only feasible with non-sustainable materials.

# TRIED AND TESTED

Accoya® wood has been tested over prolonged periods in all types of weathering conditions – above ground, below ground and even in water – and has been proven to withstand the toughest of external environments.

The exceptional durability and dimensional stability mean that Accoya® wood requires significantly less maintenance, because paints and stains stay where they belong: on the wood. In fact, test results between Accoya® wood and unmodified wood constantly prove that coatings last up to 3 times as long on Accoya® wood.

## CLADDING, SIDING & FAÇADES

Accoya® wood is suitable for cladding, siding and façades and is the ideal choice where aesthetics and less frequent maintenance are critical. The dimensional stability, durability and natural UV resistance of Accoya® wood confirms a decreased overall life cycle cost.

## DECKING

In specifying decking, natural beauty, strength and all-weather performance are important. A lasting wood with outstanding performance characteristics and dimensional stability is desirable. It is also crucial that the wood is non-toxic and therefore safe for people and pets. Accoya® wood meets these requirements.

## WINDOW FRAMES, DOORS & SHUTTERS

Accoya® wood is naturally insulating and is more durable and dimensionally stable than other woods. This means windows do not swell when closed, doors continually open freely and shutters maintain their authentic beauty. Accoya® wood may be opaque, translucent or transparent coated, and its lower maintenance requirements increase its cost effectiveness.

## OUTDOOR FURNITURE & EQUIPMENT

Accoya® wood is perfect for tables, chairs, tree houses, play sets, planters and landscaping timbers because it is non-toxic and able to withstand the rigors of different weather conditions and lasts at least 25 years in ground contact.

ACCOYA® CLADDING, DECKING AND STRUCTURAL BEAMS (HORNING, UK)

ACCOYA® CLADDING (HOOFDDORP, THE NETHERLANDS)

ACCOYA® DECKING (SHANGHAI, CHINA)

ACCOYA® ART AND SCULPTURE (ISTANBUL, TURKEY)

ACCOYA® WINDOWS, DOORS AND SHADING (NAARDEN, THE NETHERLANDS)

ACCOYA® STRUCTURAL BEAMS (AUCKLAND, NEW ZEALAND)

# THE GREATEST ADVANCE IN PANEL PRODUCTS FOR 30 YEARS GUARANTEED FOR 50

## MEDITE TRICOYA EXTREME

Medite Tricoya Extreme is characterised by its durability, dimensional stability and reliability properties.

The new design and application possibilities offered by the marriage of acetylated wood fibre with the manufacturing technology of Medite MDF continues to excite and stimulate composite product manufacturers, designers, architects and the construction industry alike, opening up new possibilities and solutions.

[www.meditetricoya.com](http://www.meditetricoya.com)

## FEATURES AND BENEFITS

### DURABLE

Longer lasting, perfect for outdoor use or wet (interior) environments

### 50 YEAR GUARANTEE

Peace of mind with a 50 year Medite Tricoya guarantee

### DIMENSIONALLY STABLE

Swelling and shrinking dramatically reduced

### DESIGN FREEDOM

All the design, fixing and machining flexibility of medium density fibreboards

### LOWER MAINTENANCE COSTS

Extended periods between exterior coatings maintenance

### PERFECT FOR COATING

Improved stability and durability enhances service life of the coating. Damaged coating or core will not affect durability

### FUNGAL RESISTANT

Effective barrier to fungal decay

### SUSTAINABLY SOURCED

FSC certified. Wood used from sustainable sources

### DESIRED SERVICE LIFE OF 60 YEARS

Independent testing by BRE shows an expected service life of 60 years for exterior use

## KEY PRODUCT APPLICATIONS

- Fascia and soffit panels and other secondary exterior applications
- Wet interiors, including wall linings in swimming pools, bathrooms, wet rooms, changing rooms
- Speciality furniture including lockers, cubicles, chairs and tables
- Play frames, tree houses and exterior composite furniture
- Façade cladding / siding
- Window components
- Door components and door skins
- Signage
